

## 5G?

We are currently living in a sea of radiation from **4G cellular technology**. New **phased-array 5G antennas** will transmit millions of additional pulsed microwave beams. The 5G lobby plans for **millions of new 5G base station transmitters** on Earth and **20,000 new satellites** in space, **plus 200 billion transmitting objects** as part of the Internet of Things for “smart” homes, “smart” cities, and “smart” self-driving cars. **You can even have a microchip surgically implanted in your brain to connect to the world-wide web.**

Breakdown of Blood Brain Barrier

Increased Risk of Eye Cancers

Increased Risk of Ear Tumors

Increased Risk of Other Cancers

**Is this the world we want for our children?**

5G meets the **needs of machines**, capable of near seamless communications while gathering personal information **without concern for health or privacy**.

## What can you do?

- 1 Become aware of wireless microwave hazards and educate others. <https://bioinitiative.org>
- 2 Contact your homeowners association, city council, and county commissioners *in writing* and tell them NO 5G.
- 3 Attend Council and Commissioners' meetings, present vetted studies and speak for 2 minutes against 5G.
- 4 Support national lawsuit at: [www.childrenshealthdefense.org](http://www.childrenshealthdefense.org)
- 5 Support a moratorium on the roll-out of 5G at: <https://www.5gspaceappeal.org/sign-individual>
- 6 Join EHS Idaho  
[EHSidaho@gmail.com](mailto:EHSidaho@gmail.com) website: [EHSidaho.com](http://EHSidaho.com)

## EHS IDAHO

### EHS (Electromagnetic Health and Safety)

### **EHS IDAHO - Promoting Safe Technology for Communication & Internet Access**

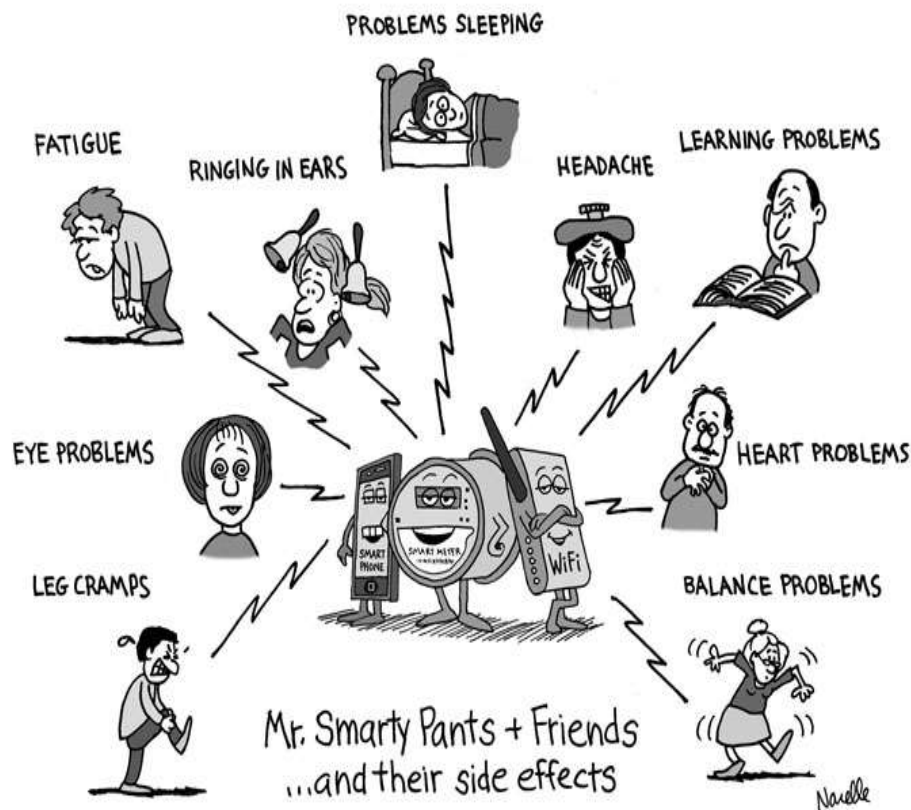

**There are over 20 thousand published scientific papers on the deleterious biological effects of EMF (electro-magnetic frequency) pollution, including high-frequency microwave (MW) radiation used for wireless technologies.**

**EHS** and **EMS** are names given to those suffering health problems from EMF-MW radiation. Some medical experts and scientists postulate that, given the massive amount of electromagnetic microwave radiation now in the environment, nearly everyone suffers from one or more symptoms of **EMS**.

#### **Two groups of people:**

- **those who understand that EMF-MW radiation causes their symptoms, and**
- **those who don't yet recognize the connection.**

# The Most Common Reported Symptoms of Electro-Smog Exposure:

Beekeepers have reported harmful effects and bee colony collapse from EMF radiation.

Without the bees, where will we be?

**\*\*\*EMF Radiation is Cumulative\*\*\***

# 5G Exposed!

4G	5G	Military Weapon
1-5 GHz	600 MHz to 90 GHz	95 GHz
Harmful to Health	Immense Heath Effects	Direct beam feels like body is on fire

5G (5<sup>th</sup> Generation Wireless) will include 4G frequencies and add lower (600 MHz) and millimeter waves (30 to 300 GHz) never before used for public communication. Compare upper range 5G frequencies to military weaponry that causes skin to heat up painfully.
